ANNUAL REPORT

National Association of Schools of Art

1980-81

Significant Findings

NOTE: Of 99 NASA possible respondents, the Committee on Research and Development received 65 completed questionnaires. Because the responses to some questions were (still) inappropriate, confusing, or incomplete, the annual report includes summarized data on only those categories that represented a solid sampling.

Terms: "N" refers to the exact number of institutions within a type whose responses were used in the summary. "Type" refers to the four main homogeneous groupings of the institutions responding.

If you require any additional information about report data, please contact Bruce Yenawine at the Louisville School of Art (502) 245-8836.

Who reported:

18 Private Independent Schools of Art
13 Private Colleges & Universities
1 Public Junior or Community College
33 Public Colleges & Universities

NOTE: If you find the Annual Report useful and did not participate in this year's reporting, please remember the value next November when we conduct the survey again.
